THE M2 MESH MASK

FILTER TECHNOLOGY 2 filter layers / filter layers / filter layers

Outer particulate filter capable of trapping particulates down to 1 micron. Internal active carbon filter effective against fumes, odors, smoke, and organic chemicals.

Outer particulate filter capable of trapping particulates down to 1 micron. Internal active carbon filter effective against fumes, odors, smoke, and organic chemicals.

Outer particulate filter capable of trapping particulates down to 1 micron. Internal active carbon filter effective against fumes, odors, smoke, and organic chemicals.

Filters tested at a world renowned Microbiological testing facility in Salt Lake, UT, USA. Conforms to NIOSH N99 filter efficiency standards

FILTER LIFESPAN

20-30+ HOURS CONTINUOUS HEAVY EXPOSURE
like grain elevators or bins, off-road motor sports, construction/demolition, etc.

20-30+ HOURS CONTINUOUS HEAVY EXPOSURE
like grain elevators or bins, off-road motor sports, construction/demolition, etc.

20-30+ HOURS CONTINUOUS HEAVY EXPOSURE
like grain elevators or bins, off-road motor sports, construction/demolition, etc.

50-60+ HOURS CONTINUOUS MILD EXPOSURE
particulates like allergens, pollution, fumes, organic chemicals, odors, etc.

50-60+ HOURS CONTINUOUS MILD EXPOSURE
particulates like allergens, pollution, fumes, organic chemicals, odors, etc.

50-60+ HOURS CONTINUOUS MILD EXPOSURE
particulates like allergens, pollution, fumes, organic chemicals, odors, etc.

WARNING The filter will only help provide protection if a full seal can be formed with the face. This mask only helps to keep certain non-harmful dusts and particles out of your lungs, nose and mouth. It will not protect from hazardous dusts like asbestos or silica. Consult a physician before using if you have compromised immune system, respiratory illness, breathing problems, asthma or allergies. Misuse, or use for an improper purpose, may result in sickness, injury or death. Complete Safety Info Online & by Phone.
